

PICTURE REPORT OF APS SCHOOL (ASHA PRIMARY SCHOOL)

2nd
Picture
report
of
2009.

"The new developments done
during the first six months
of the year 2009."

★ 2009 June 15 ★

1
After the visit of Josef, Uta, Rainer and many friends in our school in this year 2009 January, the life of our children has changed a lot. They have got so many new facilities and many necessary things have been added in our school & hostel. So we send you our many thanks & Namostya.

FIRST,
the Solar Electricity!

8 Solar Panels are fixed on the top roof of the hostel.

We had load shedding for more than 15 hours in a day and this Solar Light has become a direct blessing from the God.

So total 8 panels are fixed now. All are facing South so that it gets the Sun from morning to evening.

2

8 Pannels are adjusted in such a way that, now it looks like we have 2 sets of Pannels.

So we had to do the new wiring system, everywhere in the rooms.

And this both 2 sets, are joined together by join-Box, and goes down to the Battery Compartment.

In the Corridor, toilets, kitchen, sleeping rooms and everywhere.

A complete new set of wiring!

3

The power comes from the panels and it comes down, and it charges the 4 big Solar batteries with the inverter.

It was dangerous to have the battery open,

So we made a special power-house for the batteries.

The painter is writing the important information.

So the wiring is complete.

"Thank you" for your special sponsor Mr & Mrs Arnold, & family!

Today is the inauguration day.

So Roshana was invited to inaugurate the Solar Light in APS.

She cut the ribbon with great clappings.

4

Finally, it was my turn to get started

So I pressed the button (main switch) to START THE NEW SYSTEM

Roshana had her friends who visited our school.

And the children had ice-cream for the celebration.

After all, this is for them, so they are very happy and proud to have this facility.

They had a special observation on our new system, and they were very happy.

The system is excellent.

5

Now Comes
the
Solar-hot
water supply.

10 Solar
pannals
&
2 water tanks.

A great work

Now our roof
is full of
pannals.

8 Pannals on the
corner for lights
and 10 Pannals
for hot water.

The plumbing
work is
going on →

We had a old
place, old style
and old system
previously,

but
now, we have
every thing new.

Top black
2 tanks are
for cold water,
and bottom
2 tanks are
for hot water.

I can't imagine,
but we have
all these things
for our children!

6

So, now the roof of our hostel looks like this →.

When the hot water was supplied, everybody wanted to bath with hot water.

So, we added one more bath-room inside the present toilet.

A new construction recently →

So the hot water is coming from left and cold water from right. They both join, and goes up on the tap. The above picture is from the newly made bathroom.

Before the water was supplied in different places, we had to fix the lines for hot & cold water. A new plumbing!

7

After the pipes
are fixed,
we again
painted the
broken surface.

After we paint
it, it becomes
normal.

Now, the water is too hot.
Big children enjoy to
take bath themselves.
Previously, we had to push
them, but now they
go to bath themselves.

But we don't
leave the
small children
alone. The
teachers help
them all the
time. Some
children even
cry, but they
have to bath.

After bath,
oil on the
head and
relax on the
sun.

What a wonderful
life. No doubt,
our children
are so lucky &
so happy !!

Hand-railing
in the
School.

Since the school
is three-storied
building, the
children need
to go up &
down, several
times in a day.

It was difficult
for them and
little bit
dangerous to.

So last year, we
fixed the big
railing, and this
year we fixed
the hand-railing.
Now it is easy
to walk.

One of my friend from
abroad, had visited
her home, and when
she was here,
I invited to our
school and
requested her
to check over
students.

We do this
regularly by
different
people.

The new added
(made) washing
area.

Here we planned
to wash the
plates and cooking
pans.... in the
far corner of
the corridor.

9

It was nearly complete and ready to use.

But, But because of lack of class-rooms and space in the school, we started to build 4 new rooms on the ground.

Here, we plan to shift the dining + coking room, so that the children don't need to go up three stories for lunch.

Here for the above nearly made washing area was cancelled.

But now, we will make it here, in a new place again.

At the moment we are working and very soon, it will be completed.

The Library book-writer and teachers up-board has arrived!

2 sets for
hostel and
2 sets for
school.

Because of the
space problem,
we have a
hard time
to find a good
place for this
facility, but
very soon, after
the new rooms
are complete,
it will be easy.

At the moment,
the library is
in my office but
still the children
are happy and
they are enjoying.

New cup-board
for the teacher
to store the
materials and
special items.

We have made
3 different
compartments
and now our
teacher is very
happy.

One for dresses/shoes,
one for toys/games
and for extra.

So below, we
have 30 lockers
for children,
and above 3
lockers for
teacher.

//
We have
also made
one new
wooden
locker for
the teacher.

We plan to
put the TV
on top of
this wooden
locker.

Wow!
30 new
tin-boxes
have arrived.

One for each
children.....

I personally
went to
the shop,
and checked
it's quality,
size, thickness
and the price.

So now they
are strong,
and very good
quality.

So total
30
boxes are
piled-up
in the
dinning room,
and tomorrow
we plan to
distribute it.

12

Most of the children had a very old tin box, which they brought from their house.

Some even did not have a tin box. They had old plastic bags, to store their personal belongings.

But now they have a special Tin-Box. One-one each. Isn't this great?

When the parents come to visit the children, the child himself wanted to return this back home.

When they got new boxes, we taught them to draw & design and decorate his/her box.

It was a great pleasure for them.

13

Everybody
is painting
their own
boxes.

And they are
so happy
that, they
(everybody)
have a new
colorful tin
box, under
their bed!

But the freeze was too big, to enter
the rooms, of the kitchen. So,
we had to break the wall
of the dining rooms, to take
the freeze inside the kitchen.

After comes the
freeze and
the
washing
machine.

The inauguration
of the freeze.

after all the
decorations and
special
preparations,
the freeze
was started.

No Electricity!
No problem!
we have
Solar lights.

Special thanks
to Hartmut, his
wife, family & friends
for this special
gift to our children

Samsung!

Very Strong
and
Very good
Quality.

In our culture
we worship
everything, before
we start
anything.
So good luck
Sign (卍) is there.

after the
inauguration
of the freeze,
we distributed
ice-cream
to our children.

The first
ice-cream
in our hostel, directly
from the freeze.

Two Compartments! upper & lower!
Now the vegetables are
always fresh. ~~~~~
The freeze is taller
than me. ↓

51

Many students
did not
have text
books!

So we
distributed
30 sets of
different
books to
30 children.

Now all
have books,
and
all are happy.

Many (many)

students
do not bring
copies to
school.

→
So where they
will write?

So we make
Special Copies
Our self and
we distribute
them, free of
cost.

~~~~~  
She is happy to  
get this present.  
we are very  
happy to see  
their happiness.

We are making  
new tap-area  
(for hand-washing)  
in the toilet  
area, in the school.  
previously, there  
was only 1 tap,  
but now have  
5 taps for  
washing.

we met  
Getlinde and  
Ralf, the  
great  
Maintain  
Climbers! ~~in it~~

He handed  
us 3 big  
boxes of  
different  
thing for the  
children.

17

The teacher is checking the list and now she will store it in the cupboard and she will distribute it to the children as necessary.

Mrs. Yoringee was very kind to hand-over us the boxes from time to time. A great gift for the children.

The great and happy moment of our Hostel. (The two small children ← Christian / Martine, as also seen in the picture over Special guests visited us in this year, 2009 January. We had a Special welcome for them. Thank you for visiting us!

Inauguration  
of  
the Hostel.

Mr. Josef →  
&  
Mrs. Uta →

They are  
cutting  
the special  
ribbon

to  
inaugurate  
the hostel  
officially.

Thank you,  
Josef & Uta.

Mr. Rainer  
is also  
cutting the  
special  
ribbon,  
to start  
the hostel.

Thank you  
Rainer!

And Everybody  
are giving  
a "join-hand  
celebration"  
to  
inaugurate the  
hostel.

Thank you  
everybody.

Mr. Sabistain  
who helped  
us to design  
and lay-out  
of the solar  
panels, is  
trying to help  
her cook, to  
prepare the  
school lunch.

pen-pal  
letters were  
handed to  
our great  
for from our  
children  
to Mrs. Urshala  
Erarik.

The hostel leader  
is doing a very  
great job.  
She loves the  
children very much.  
She is helping  
them to  
brush their shoes.

Sunil-rak  
Little child  
of the hostel.  
His hand (right)  
was not straight  
because his family  
couldn't do any  
treatment, when  
he broke his hand  
when he was  
small so we  
took him to the  
hospital.

He was admitted  
for the operation.

He has no  
mother and  
father has a  
next wife,  
and he  
lives  
separately  
with his wife.

So Sunil, lives  
with his  
grand-parents  
who have a  
difficult life  
themselves.

In the operation  
theater.

Our lady  
teacher  
visited the  
hospital  
everyday,  
and gave  
him the  
motherly  
love + care.

After the  
operation,  
he was brought  
to the hostel,  
since there  
was no one  
to care him at  
his home.

Our lady teacher  
took a special  
care for Sunil  
at this time.

He is so happy!  
He will start the  
school again after  
the plaster is  
removed.

21

For intertainment  
& fun, we  
take the  
children  
to educational  
trips and  
conduct  
out-door  
programmes  
off and on.

When there  
is shortage of  
water in the  
tap, our lady  
staffs go to  
the river  
(next to our hotel)  
to wash the  
clothes. we plan  
to dig a well  
or deep bearing  
in near future.

Out-door  
walking is  
also organised  
from time to  
time.  
Whenever they  
go, they  
love chips!  
and Ice-cream.

Dr. Frenz and  
his team  
in our  
School.

"Doctors without  
Borders"  
in  
APS.

The APS Cap,  
with  
the APS teeth  
in the  
APS school.

It was very nice of  
Him to afford  
time, to come  
to our school,  
and check  
the teeth  
of our  
children.

← Big Students  
outside  
the  
class room.

↳ For Small  
Students,  
Dr. Frenz  
visited the  
children  
inside the  
class room.

It was a great  
programme.

Mr. Theo and  
her girl-friend  
visited my  
school.

He had a  
Special check  
to Sunil, for his  
hand.

He checked  
few students  
who had  
different troubles.

Mr. Theo is  
a well-known  
professional  
physiotherapist.

He also visited  
the different  
class-rooms,  
and tried  
to see their  
books, copies  
and  
he distributed  
chocolates to  
everybody.

The baker  
in our hotel.  
He taught  
our children  
& the teacher  
how to make  
noodles &  
Pasta.  
The children  
enjoyed this  
with great interest.

The pasta  
is ready.

The machine  
was great.

Our teachers  
have learned  
very nicely...  
how to make  
it again.

We had a  
wonderful  
lunch that  
evening - Pasta.

The children  
always pray  
before  
eating.

A Co-incidence!  
It was the same  
day, when  
Mr + Mrs Peter +  
Jutta Rospatt,  
visited our school,  
when Dr. Fraz, had  
a teeth check for  
our children.

Mr + Mrs Peter +  
Jutta Rospatt  
were very much  
interested in  
our school & hostel  
activities.

The "APS" Cap  
Suits Mr. Peter  
very well. He  
has shown much interest  
to up-grade our school.

Early in the morning the children enjoy to brush the teeth, with SPECIAL BRUSH AND PASTE

And also to draw and color with SPECIAL PEN. "EDGING"

It's a special gift for them. Thank you.

The color pens are so excellent, with different sizes & colors.

The students enjoyed very much to paint the cups, with these special pens.

All have a different cups of their own, and they have a very good painting on it.

When the children are free, they play & enjoy with different card-games and toys.

The children are so happy to write their names on their tin box.

The special pen was very useful for them.

Some made flowers & some made mountains.

Who has done best?

Everybody is curious and trying to learn more, think more and be more creative.

The face paint. It was a great day for the children.

The teacher taught them simple things but later the children started to design on their own, and ultimately they came with new ideas & drawings.

So, Thank you very much for your special gift!

We enjoyed very much.

Washing Machine has arrived but we couldn't use it, for some time, because we had lack of water.

our school guard is learning how to use it.

It's now for all of us. So, the company person, is giving a special training.

The children  
enjoy the  
T.V. on  
the holidays.

On Saturdays,  
They bath and  
enjoy the TV  
in the afternoon.

The sewing  
Machine!

Our Lady teacher  
is repairing  
the torn clothes  
of the children.

The machine is  
very useful.

At the moment,  
we are making  
new rooms  
in our school.

after this we  
will not have  
any space problem.

It was very  
Urgent & necessary.

The teachers  
have a problem  
because there  
is no extra room  
for them to check  
the copies. So they  
have to share  
with the children.

It is there sleeping  
room there. so it was  
very necessary to  
make new rooms.

we have made  
30 new set  
(2 set each)  
for boys & girls  
→ night dress.  
So total 60 Pies.

At the moment,  
we used the  
old stock for  
this purpose, but  
we have also  
bought a new set  
with bigger thickness  
for cold season.

We will make that  
later on, in winter.

The teacher  
distributed these  
new dress and  
the children  
are very happy.

The happy  
girls  
with  
their  
new  
night dress.  
(1 student is  
missing in the  
photo)

The happy  
boys  
with  
their new  
night dress.

(2 students are  
missing in  
the photo)

Many students did not have a proper shoes for the school dress.

So we distributed 30 sets of shoes for 30 children.

Still there are few children and we will give them very soon.

Similarly, many students did not have proper outdoor shoes, for acting & exercise.

So, we have given them new sports-shoes too.

So thank you very much.

The children are happy to get the new shoes & dress.

Many children did not have proper shoes, dress and extra pair.

So now, all are happy.

The hostel  
Life!

Morning Study  
Time.

It is very good  
that we have  
this dress for  
them. Otherwise  
Somebody had  
a new one and  
Some had old.  
So now, everybody  
has the same.

Time to go to school.  
Before their food,  
they prepare and  
make ready,  
their bags,  
so that they can  
pick up and  
go to school.

Last preparation  
before the  
School.

The dress,  
the tie,  
the shoes  
and...

and...  
and...

The hair,  
and the style!

Everybody has  
to comb properly.

The final  
Checking and  
Correction by  
the teacher, before  
going to school.

Digital Copier "Kyocera" has arrived and the photo copy expert is giving training to our teachers and students.

It is always good to learn new things.

Now we can distribute many hand-arts, drawings and weekly homeworks in multiple pages to our children.

So, finally we are very happy to say that our children are doing very well and all are happy, healthy and most satisfied in all aspect.

So, we thank you very much. We are very grateful for your help.

Namaste  
and  
Thank-you  
Once again!  
June 15, 2009

So, thank you  
all the members  
and friends of Asha.

Namastya!

*V. Anand*  
2009 June 15

From:- All the children of Asha.
