

★ ASHA SCHOOL ★

Picture
Report

From
The Entire
Children
of
the School.

2010 July 30

①

The Asha School
is running perfectly
under the
umbrella of
your love, care
and support.
So, thank you
very much.

The children
are learning,
growing and
doing much
better each
day. They are
very lucky to
be a "Asha child".

②

They come in
a very small
age, and they
start with
basic Education.

Gradually, they
grow big and
when they
are tired,
they take
some rest.
But the development
never stops.

③

Day by day,
they deserve
to study in
higher classes
and they
concentrate
more in
education.

And finally,
they pass
the primary
level and
pass out from
Asha school.

The first graduates
of Asha school
2010 →

④

Still, there
are so many
children in
our community
who are not
getting the
light of education.
They have never
been (taken) to
any school, what
a pity!!!

But our kids
in APs are
so fortunate.

They are so
happy and
their parents
are more happy.

5

We are helping
the children!
Not only in
Educating
them.....

But we are
helping them
in their
Other needs
too.

Sometimes,
they break
their glasses,
and we
provide them
a new pair.
We give them
the extra
pair too.
(2 sets)

6

We have made
small boxes,
for the classes,
to store the
copies & books
of the children.

We distribute
free copies
too, for the
very poor
children.

If we don't
give them,
they come to
school without
any thing. So we
help them in
all cases.

(7)

We have very small children too, in our school.

More than study, they play, sleep and enjoy in the school.

Previously we had less beds and recently, we have added one more bed, and more cushions. Now, life is more comfortable, for the small kids.

(8)

Similarly, there was lack of teachers table in the class rooms.

So, we have added several tables in the class rooms.

Because there was no chair, in the class room, the teachers had a difficult time. Now we have one table - and one chair for all the teachers.

9

We celebrate
"Birthday"
in the school
for children.

"Birthday" is
not common
to celebrate
in the family.

On top of this,
there is no time
and money
for this extra
expense in the
family.

So we provide
a "Crown" and
the class friends
sing a "Happy
Birthday Song"
for the children.

10

The children
feel so happy
to stand in front
of the friends
and wear
a "Crown"!

They Exchange
love and
clap for the
friends.

This gives much
pleasure to the
child.

(11)

"The Extra work"

From time to time, we invite special resource person, to give training to our children, regarding handy-crafts and paper work.

We give high priority to Extra activities too, apart from Education of first basic knowledge only.

(12)

After the training the children are self-motivated to create new things on their own.

These type of Extra Curricular Activities is helping the children to be creative, smart and more patient in their work.

13

It is also helping them to work in a team and to co-operate and support a friend.

Usually we throw these plastic glasses after using it.

But our children have learned to make a handy-craft from these re-cycled materials.

14

Similarly, the puzzle game and other playing items are very popular in our school.

They are bought in the dining room for their work.

Before and after the lunch time, the dining room is a "Extra activities room".

(15)

PRIMARY SCHOOL

In April 2010
Dr. Matthias

Breider, his
wife, mother-in-law
and his daughter
visited the
Asia school.

It was a
great pleasure
to meet him
and
his family.

The doctor
visited the
all classes
and
examined
their papers too

(16)

They gave a
small
speech too.
They were
very happy
to see the
standard of
English of
our kids.

He also
examined
the foot of
our guardian
and advised
us regarding
a special
shoes for her.

(17)

The children
are sometimes
taken out
to the
market and
short trips
too, as an
Educational
Trip.

They visited
The Buddhist
Monastery
Some time
ago and
they enjoyed
it very
much.

(18)

The children
are taking
photo-graphs
with the
Buddhist monk.

is great a holy
opportunity.

It's a great
pleasure
to go outside
with the
friends.

The "Tamarang Girls". These girls are staying with the mother, who is illiterate and she has no job. They came to our hostel (school) and we made them the school dress and now they are totally saved. They are very happy too. (20)

(20)

An Expert is installing two new computers in our school. So now we have 3 new and 1 old computer.

So, the bigger children can enjoy with the computer also.

We have a Special photo-copy machine too. (It is seen on the corner of the photo).

(21)

30 April 2010.

Dr. Helga and
her husband
Mr. Phillippe
visited
the school.

She took
a photo
with Mr. Rabi
and his
family.

Dr. Helga is
supporting him
for higher
Education.

(22)

Dr. Helga +
Mr. Phillippe
also
examined
the foot
of the
mother of
Rabi.

They also
advised
for a
special
shoes.

23

The farewell programme of grade 5 students who were staying in our hostel and who passed grade 5 last year.

All the children and the teachers organized a special program for them.

Now they will live with their parents/relatives and continue in higher school. Asta is a primary school. So, now they will join grade 6.

24

Our respected volunteer teachers Carla + Martina were, in the hostel, with us, in this occasion.

The last farewell dinner for our graduates of the hostel.

It was hard to say good-bye to these lovely children who stayed with us few years.

(25)

The
"AOS" Lunch!

The children
enjoy hot
food in
the afternoon
in the school.

150 children
enjoy this
Special
Lunch
everyday.

It is difficult
to bring lunch
for them, so
we provide
them, for their
good health
and better
performances.

(26)

When Mr. Joseph and Mrs. Uta visited us in this January, all the children enjoyed a picnic and "day-out" to Nagarkot.

All the children were very excited and very happy.

27

It was also like a farewell program for grade 5 students.

It is very wonderful that, the graduates of grade 5, can continue in grade 6, in my other high school. So they can now complete the school level perfectly.

Thank-you for these facilities for our kids.

Mrs. Rachana is translating the Spanish to our students.

28

Mr. Josef SANCHEZ greeted all the out-going students and the program was excellent.

All the children had a wonderful day. Carla, our volunteer teacher had taught so many games too.

29

The "VJP" Lunch was organized and it was like a great festival for the children.

It is out of imagination for our kids to have this facility (enjoyment) from their family. So everybody was very happy.

30

The report Card distribution day in APS.

Every three months, the parents are called to school, and the teachers explain the developments of their child.

Asha School, is a primary school. The children study up to grade 5 only. Now where will they go, after grades?

"The story of Success starts from the next Page" →

(3)

Now, our graduates
of grade 5 will
join our next
school (SACS)
From grade 6.
Thanks to all
the sponsors.

→
In the picture,
our first batch
of APS, are
visiting the
new school,
for the first
time, to get
familiar and
information of
the new
school. The
teachers are
explaining them
in detail.

(32)

Then, the
next day,
they sat
for
the
entrance
Exam
for grade 6,
in the new
school.

There are
total 9
students,
who passed-
out grade 5,
from APS,
this year.

33

It was a
three hour
Exam.

After few
day, the
result was
out, and
all were
successful to
Continue in
grade 6.

So this is a
wel-come
group photo
in the new
school.

34

After few
days,
we invited
their
parents,
relatives,
in our new
school, and
we had a
general
meeting,
information
sharing and
a group
photo, with
their parents
and relatives.

35

Then we distributed copies & books for them for grade 6 in the new school.

It's a great opportunity for them to continue to higher education after passing grade 5 in APS.

36

So the group photo once again.

The father of Santa Lama together with her brother.

The brother was sent to village previously, but now, both the brother-sister are reading in the same school. (Family-re-union)

37

"The first day to the new school in grade 6"

"The historical day for AFS children"

Our volunteer teacher Carla went with the children, for the first day, to drop the children in the new school.

38

All the new children were welcomed by all the old students, and the introduction program was organized in the morning school assembly.

Carla (Clara) gave a welcome speech too, and introduced all the children in the mass.

39

For the first few days, it was hard to manage the bus-route for them. So, I drove them to school, myself in my jeep.

In next few days, we managed to fix the route to adjust with the other kids. So, now they travel by school mini bus to-fro.

40

The group photo of grade 6 in the new school with the class teacher.

The group photo of grade 6 (APS kids) with cable in the new school.

41

our next
volunteer
teacher Julie,
also visited
this new school
and she liked
it very much.

now it is
time for
Carla to
return
back.

So, once again
she visited
the high school
and met
the children
and gave them
letters.

42

All the
children
received
the letter
and
they were
very happy,
and now
they are
doing very
good in grade
6 in new school.

So, this is the
successful story
of grade 5
children
of Asta School.

(18)
Julia + Carla
in the picture →
Volunteer
teacher in
our school
have taught
so many new
things to our
kids. It is
very important
and they are
always welcome.

Now, it is
time for
Martina
to return
back.
The students
of the hostel
organized a
special program
for Martina Mis.

(19)
The last
farewell
dinner
with Martina.

Carla performed
a special
dance for her.

Now it's
time for
Carla to
return back.
So the teachers
are giving
her a farewell
program.

(45)

In hostel,
we distribute
Shoes, dress,
and other
necessary
materials
to the
children
all the
time.

The children
are so
happy to
get the
new shoes
and dress.
It's ^{like} a festival
for them.

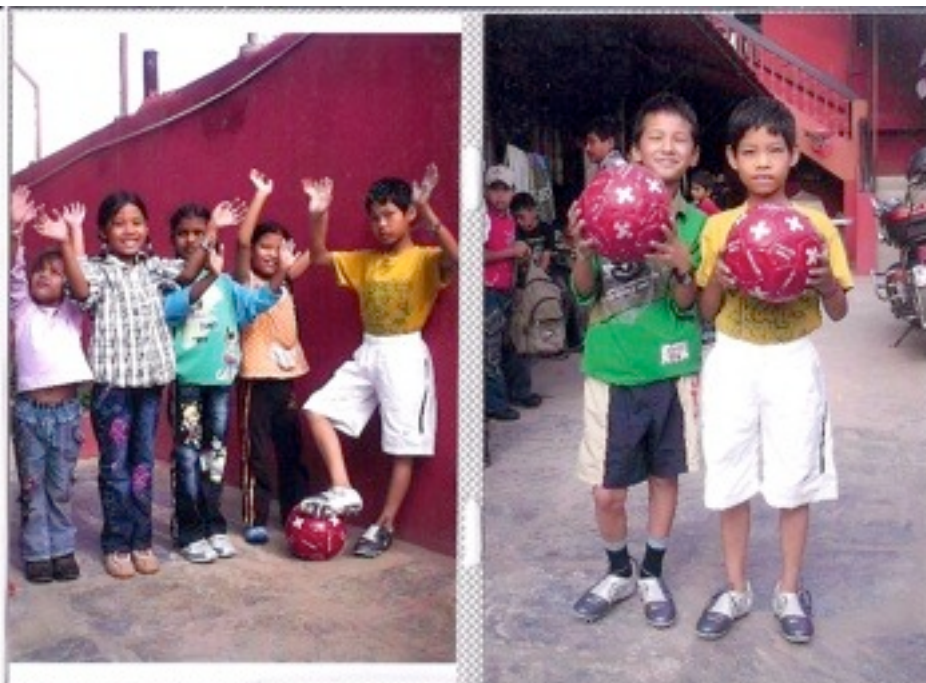

The tamang girls are also so happy
we gave some dress and shoes to the mother too.
It is hard for everybody to have a new dress.
So our gifts are always special for them.

(46)

The kids are always happy to get something new.

(24)

The football shoes, the half pants and T-shirt - are always a special present to the children.

(25)

The hostel children are so happy to live in the hostel. They are growing in a very comfortable way.

(45)

MISS Julie
with the
APs teachers
before starting
the classes
in the morning.

She lived
with the
hostel kids
and she
enjoyed it
very much.

(46)

Face paint
and
lots of other
interesting
things
with the
children.

we thank
all our
volunteer
teachers very
much.

(51)

The special letter arrived from Germany.

The letter Exchange programme is Excellent.

The children are always interested for this new concept.

A chance to have information and culture Exchange to widen the knowledge.

(52)

Post cards from Germany!

It's very much appreciated and we must continue this regularly.

We give the letters to the children and they write back.

They feel so proud to get a letter from their pen-pals.

(53)

Thank you
for starting
this special
"Letter exchange"
programme.

Oh! what
is written
for me??

The excitement
cannot be
expressed
by words!

Special thanks
goes to Julie,
her school family
in Berlin, and
the children, for
the initiative.

PRIMARY SCHOOL

(54)

We must
thank
these 4
Ladies
for their
special
work.

(non-teaching
Staffs of
WPS).

3 of them
prepare
the lunch
for 150
kids everyday.

The rest one
takes care
of the small
kids for feeding.
